TIGRAY EMERGENCY COORDINATION CENTER OPERATIONAL UPDATE

27 January 2023

TIGRAY Region: ECC meeting 27 January 2023

- 1. Opening remarks
- 2. Action points from the previous meeting review
- 3. Key Sectoral updates
- 4. AoB Return plan

Previous Action Points

Action points for next meetings	Responsible body	Status
Situation assessment and response to Afar IDPs	OCHA/UNDSS	On progress
Draft Return plan	RWG	Next meeting
Accelerated education plan	Education Cluster	Next meeting

Context update

- Access within Tigray improving; following the withdrawal of Eritrean forces from various locations there are reportedly newly accessible woredas, which humanitarian partners could reach for their lifesaving response operations.
- There are reportedly newly accessible areas such as Ahsa'a, Chila, Adet,
 Zana, Naeder and Rama for humanitarian response.
- OCHA notification no more necessary effective 25 January, humanitarian partners could travel with their own system of notifications.
- Humanitarian supplies dispatch continued with improving accesses to various woredas. 1986 mt of Food and NFI dispatched in the week.
- DHC with DHoO of OCHA and Head of agencies conducted mission to Central, Eastern and Northwestern zones.

Supply dispatched in the week to hard to reach areas of Central and North Western zone

Food Cluster Update

Food Cluster situational update as of 26 January 2023

■ Key updates:

- Since mid-November 2022 when humanitarian food supplies resumed to enter Tigray, more than 116,800 MT of food for Round 2 and Round 3 along with fuel stock has been brought into the region as of 26 January.
- Recent IDP assistance:
 - Food dispatched to Adwa, Axum, Abi Adi, Adigrat and Hawzen for assisting recent IDPs (displaced from Rama, Chila, Ahsea, Adet and Egela, etc). Ongoing IDP verification is challenging and requires govt. support.
 - Food distributed to more than 192,000 recent IDPs in Mekelle, Mehoni and Maychew.

Food Cluster situational update as of 26 January 2023

☐ Key updates:

- Humanitarian access, particularly in border areas, areas off the main roads and locations requiring cross-line movements, continues to be challenging for food response. Due to access constraints which hindered food dispatch, some communities (both host and displaced people) of Zala Anbesa town, Aheferom, Emba Sieneti, Erob and Gulo Mekeda woredas received their food rations in neighboring woredas, including Bizet, Adigrat town and Hawzen town.
- As of 12 January, some woredas remain either fully or partially inaccessible for food partners:
 - In Central Zone Adet, Adwa, Aheferom, Ahsea, Chila, Edaga Arbi, Egela, Emba Sieneti, Endafelasi, Hahayle, Naeder, Rama and Tahtay Maychew.
 - In Eastern Zone Erob, Gulo Mekeda and Zala Anbesa town.
 - In North Western Zone Adi Hageray, Dima, Laelay Koraro, Seyemti Adyabo, Tahtay Adiyabo, Tselemti, and Zana.
 - In Southern Zone Chercher and Ofla(Korem).

Accomplishments in the week (20 January 2023-26 January 2023)

No.	Activity description	Plan	Achieveme nt	Gap	Remark (explanation for over/under achievements
1	Food dispatched through four corridors into Tigray (in MT)	32,725 MT	22,000 MT	12,725 MT	
2	# of people assisted in the week	997,966 people	487,771 People	510,195 People	 More fuel required for distribution and monitoring Late reporting due to comm. and fuel challenges Delay in MBL preparation
3	Food dispatched to different FDPs (in MT)	4,679 MT	4,679 MT		Insufficient cashSome woredas are fully or partially inaccessible

Food Cluster situational update as of 26 January, 2023

Key updates:

- For R1 of 2022
 - As of 10 November, JEOP dispatch (48,299 MT; 93%) + WFP dispatch (24,846.7 MT; 68%) = 73,145 MT (83% in total).
 - During early August and late October: partners assisted 4,565,263 people (88% of total planned caseload of 5.2 million people by non-governmental partners) with 72,604 MT of food in 75 woredas as of 10 November.
- For R2 of 2022
 - Total dispatch: 88,515.7 MT to 84 woredas; Distributed: 78,281.9 MT to 4,674,481 people 79 woredas.
 - ❖ JEOP dispatched 53,117 MT to 54 woredas and distributed 43,647MT of food to 2,576,905 people in 50 woredas .
 - ❖ WFP dispatched 35,398.6 MT to 30 woredas and distributed 34,636.8 MT of food to 2,097,576 people in 29 woredas, including more than 135,900 new IDPs in Mekelle.
- For R3 of 2022 starting with Mekelle food distribution 532,568 (118,197 IDP and 414,371 HC) have been assisted with 8,863 MT of food. Food dispatched to Mehoni, Raya azebo and Zata for 3rd round.

Key Challenges (26 January, 2023)

- Unable to address the humanitarian food needs of 10% of the target population by all food partners (in 2nd Round of 2022).
- Humanitarian access, particularly in border areas, areas off the main roads and locations requiring cross-line movements, continues to be challenging for food response.
- All food partners have to continue relying on humanitarian flights to bring cash into the region while banking services, gradually resuming in the main towns, is yet fully functional. Significant amount of cash is required for partners to cover day-to-day operation costs and previous credits, ensuring that assistance continues without interruption.
- Together with the local authorities and communities, partners are working on re-targeting to include people who are newly displaced or experiencing secondary displacement in the caseload and identifying other most vulnerable people in need based on available vulnerability information (for instance, demographic and socio-economic data). This exercise has been very challenging due to fluid population movements, high number of displaced people, limited or non-existing local government structure, presence of multiple armed actors in some areas, and lack of documentation among IDPs.

Way Forward (26 January, 2023)

- To support partners in providing timely and adequate assistance to the most affected populations with limited resources, strengthening/re-establishing local government structures as well as the linkages between authorities at all levels, ensuring that civil servants, having not been paid for more than 18 months, receive their salaries, and resuming unrestricted flow of commercial supplies into Tigray is crucial in addition to full resumption of essential services (including banking, communication and other enablers) in all parts of the region.
- Sustaining the ongoing food assistance through the most appropriate modalities, complementing it with agriculture and livelihood support in collaboration with other clusters is critical to improve food security in the region and prevent further deterioration. It is expected that food assistance may be needed at least up to next main harvest season in late 2023. Scaling up support for agricultural production, market integration and early recovery activities with provision of regular and predictable assistance is urgently needed to reduce the food gaps in Tigray.

Tigray

Resumption of Cargo Movement to Tigray via

three corridors

Logistics Cluster EDRMC

Addis Ababa, Ethiopia

January 2023

PROCEDURES TO GET EDRMC CLEARANCE FOR THE MOVEMENT OF HUMANITARIAN CARGO WITH SUPPORT OF THE LOGISTICS CLUSTER VIA 3 ACCESSIBLE CORRIDORS: MEKELLE-SEMERA, GONDAR-SHIRE, KOMBOLCHA-MEKELLE

Convoys are not required to move humanitarian cargo. Partners can move to all areas of Tigray, from any accessible corridors, provided they have received EDRMC support letter.

The Logistics Cluster is supporting partners in the compilation of the movement needs, notifying EDRMC and compiling the information of the confirmed arrivals

To receive the EDRMC support letter: humanitarian partners are required to notify the Logistics Cluster of intended movement using the template provided in this document. Partners are also required by EDRMC to report back to the Logistics Cluster on confirmed arrivals.

Partners are accountable for their cargo and for timely notification of cargo movement.

Failure to notify EDRMC may induce complications along the Humanitarian Corridors.

Process Overview: Humanitarian Cargo Movement to Tigray

ORGANISATION IS RESPONSIBLE 1) OF ENSURING TIMELY NOTIFICATION TO THE LOGISTICS CLUSTER OF THEIR INTENDED CARGO MOVEMENT, 2) OF THE SAFE ARRIVAL AT FINAL DESTINATION OF THE CARGO, AND 3) OF REPORTING BACK TO THE LOGISTICS CLUSTER ON THE CONFIRMED ARRIVAL AT FINAL DESTINATION.

Cargo Information to be submitted to Logs Cluster

The partner organisation submits the list of trucks to be included in the upcoming notification to EDRMC, following the Logistics Cluster template and before **12:00 EAT**, daily.

For Health, IT, Agriculture items: Line Ministry Support Letter to be obtained by partner and shared with Logistics Cluster.

Ethiopia.humanitarianconvoys@wfp.org

Confirmation of Receipt

The Logistics Cluster confirms receipt of the list of partner trucks seeking EDRMC support letter.

EDRMC Notification Submission

A consolidated list of partner trucks is sent to EDRMC including all trucks intending to move.

Notifications are submitted daily at 14:00 EAT. The Support Letter is expected to be received by EDRMC on the same day.

Logistics Cluster to share back with partners the EDRMC Support Letter

Once EDRMC sends back the support letter for the notified trucks, Logistics Cluster will share the letter with all relevant partners.

Cargo Movement

No convoy movements are required, and humanitarian partners are free to move to all areas of Tigray, from any corridor and to any destination.

Confirm to Logs Cluster of cargo arrival at destination

Partner organisations are required to inform the Logistics Cluster of confirmed arrival of their cargo at destination, for reporting purposes.

DLogistics Cluster reports
weekly on cargo
entering Tigray

The Logistics Cluster consolidates reports received from partners on a weekly basis on the confirmed arrival cargo in Tigray.

TO BE SENT TO THE LOGISTICS CLUSTER BEFORE 12:00 EAT DAILY, TO ETHIOPIA.humanitarianconvoys@wfp.org

MOVEMENT TO TIGRAY VIA 3 ACCESSIBLE CORRIDORS

FUEL

No restriction on fuel, and it can move freely. WFP BSP will continue to provide fuel upon request and on a cost-recovery basis, until availability of commercial fuel is restored in Tigray. As for the humanitarian cargo, partners moving fuel by their own means need to notify the Logistics Cluster to obtain the EDRMC support letter.

IT equipment, health and agriculture items

Relevant line ministry support letter is required. Once received, the letters should be shared with the Logistics Cluster in order to obtain EDRMC support letter.

Cash movement

As per EDRMC "operators can present their justification on outstanding transactions or magnitude of the operation upon their request. This arrangement will serve until the banking service start"

Cargo airlifts from Bole airport

Authorities at the airport have informed the Logistics Cluster that previous procedures apply (line ministry, EDRMC and NISS clearances required for cargo to enter bole airport. more information on airlift sops available on the logs cluster website)

Weekly Operational Updates

□Since 15 November, **38 partners** requested support letter for the movement of **3,979** trucks. **3979 trucks** obtained EDRMC support letter, and **3182 trucks** with 128,636.8 MT of humanitarian supplies and 1,062,889 litres of fuel have confirmed arrival via the three corridors.

Between 20 January and 26 January, the arrival of **404 trucks** carrying **17,060 MT** of humanitarian supplies via the Semera-Mekelle Corridor was reported.

Accomplishments this week

Activity description	Accomplishment	Remark
 Transport for partners upon request 	 2.1 MT of Protection items belonging to UNFPA were dispatched from Mekelle warehouse 20 January. The items were collected by WVI to be distributed to IDP sites in Mekelle. 	
	2. 2 MT of Health items belonging to WHO were dispatched from Mekelle warehouse between 20 January and 23 January to be distributed to Ayder Hospital, and Maichew, Abiadi, Mekoni and Koraro IDP sites	
	3. 14.5 MT of Early Recovery items belonging to IOM were dispatched from Shire LC Warehouse on 23 January and 24 January. The items were collected by ZOA to be distributed to Adidaero IDP centres	
	 The Logistics Cluster in Mekelle supported ZOA wit three trucks of 40 MT to transport 58.5 MT of NFI and Agriculture items from Mekelle to Shire and Adigrat 	
	5. The Logistics Cluster in Shire supported WVI with three trucks of 20 MT to transport food items of 60 MT from Shire to Selekleka on 20 January	
Storage for partners upon request	 In Mekelle the Logistics Cluster is storing approximately 371.5 MT of WASH, Shelter, Health, Education, Protection, General Operation and NFI on behalf of ten partners. In Shire, the Logistics Cluster is storing approximately 54 MT of Health and WASH on behalf of 4 partners. 	
	1. Transport for partners upon request Storage for partners	1. Transport for partners upon request 2. IMT of Protection items belonging to UNFPA were dispatched from Mekelle warehouse 20 January. The items were collected by WVI to be distributed to IDP sites in Mekelle. 2. IMT of Health items belonging to WHO were dispatched from Mekelle warehouse between 20 January and 23 January to be distributed to Ayder Hospital, and Maichew, Abiadi, Mekoni and Koraro IDP sites 3. I4.5 MT of Early Recovery items belonging to IOM were dispatched from Shire LC Warehouse on 23 January and 24 January. The items were collected by ZOA to be distributed to Adidaero IDP centres 4. The Logistics Cluster in Mekelle supported ZOA wit three trucks of 40 MT to transport 58.5 MT of NFI and Agriculture items from Mekelle to Shire and Adigrat 5. The Logistics Cluster in Shire supported WVI with three trucks of 20 MT to transport food items of 60 MT from Shire to Selekleka on 20 January Storage for partners upon request 1. In Mekelle the Logistics Cluster is storing approximately 371.5 MT of WASH, Shelter, Health, Education, Protection, General Operation and NFI on behalf of ten partners. 2. In Shire, the Logistics Cluster is storing approximately 54 MT of Health and WASH on behalf

Plan for next week

No.	Activity Description	Operational location (woreda)	Plan (qty)	Available resources	Remark (any preconditions, support needs, etc)
1	Facilitate Transport Services	Semera-Mekele Gondar-Shire Kombolcha-Mekell e	Daily request for EDRMC support letter on behalf of partners.		
2	Facilitate Warehouse Service	Mekelle and Shire	Upon request	Mekelle (3500 m2), Shire (730 m2)	Subject to partner request and operational constraints
3	Facilitate airlift services	Addis Ababa- Shire	Nothing planned for the moment	Boeing 737 13MT per trip (subject to volume of cargo)	Subject to partners securing required clearances
4	Sharing Information Management Products to Partners	Online	Weekly, monthly	https://logcluste r.org/ops/eth20 a	

Challenges

☐ Partners not reporting on the arrival of their trucks.

Nutrition Cluster Update

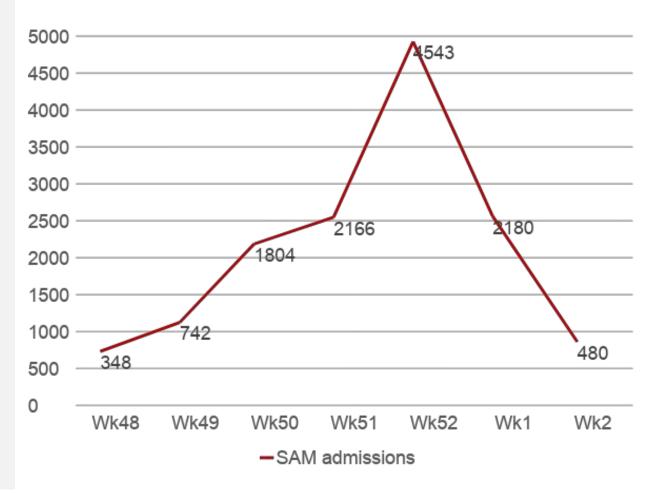

Nutrition-Context

- Children under 5 Screened: 16,936 (7,570 boys and 9,366 girls)
- Of the children screened 3% has severe malnutrition and 18% had moderate malnutrition.
- PLW screened: 4,268 and 45% of these women had MUAC<23cm thereby being acutely malnourished.
- A total of 480 SAM children were admitted for treatment (382 children < 5 were admitted to OTP and 98 were admitted to SC. Fewer new Admissions have been recorded in the second week of 2023.
- Micronutrient supplementation with Vitamin A and Iron is ongoing. Deworming tablets are being provided in health facilities.

Operational Updates

- All Woredas are being covered by a nutrition partner who ensures availability of nutrition services in that woreda.
- Nutrition Supplies are being sent where there are needs. Nutrition supplies that
 were meant for inaccessible areas have been redistributed to currently accessible
 areas. The inaccessible areas will be covered by supplies that are in the pipeline.
 Distribution is done up to health facility level in liaison with the Woreda Health
 Offices.
- Nutrition partner, REST has organized for the distribution of nutrition supplies in formerly inaccessible woredas of Edarga Arbi and Maikinetal.

Nutrition Supplies

Commodity	Requirement	Received in Tigray through all open corridors	Released	Pipeline	Gap
RUTF(three months requirement)	50,000 cartons	33,000 cartons	16,000 cartons released	50,000	0%
RUSF	260 MT	197.7MT	197.7MT		62.3 MT (24%)
CSB++	670 MT	818 MT	566MT	150 MT	OMT (0%)
F75	323 cartons	227 cartons	77 cartons		96 cartons
F100	205 cartons	200 cartons	55 cartons		5 cartons

Challenges

• Health workers welfare remains the biggest hurdle to the delivery of timely and quality health and nutrition services in their respective facilities.

Supply misuse as most of nutrition supplies are seen in the market.

Global market of RUSF affecting its availability for Tigray.

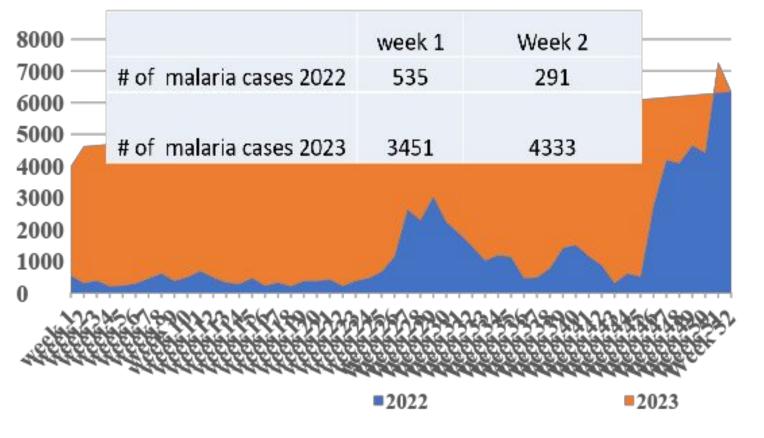

Health Cluster Update

Malaria Situation update

Trend of Malaria and comparison of 2022 and 2023

EOC update

- Malaria EOC meeting conducted upon the action points
 - ❖ Most partners finalized their preparations to implement phase two malaria epidemic response in 27 weredas.
 - Developed minor transmission season PRP.
 - Access to the malaria hot weredas (Tselemti) not guaranteed.

Surveillance and Coordination update

WHO;

- A team from WHO conducted alert verification on the Suspected
 Measles outbreak reported from Abiadi and Shire.
 - o Active cases search in HHs.
 - Ruled out and Diagnosed as the cases were not measles but chicken pox and trachoma.
- Facilitated transportation of Rabies PEP (60 bottles)
- EWARS improvement
 - Dealing EWARS kit to avail for all level of health system including health posts
 - Coordinating malaria response activities in North western and
 Central Zone

Coordination Updates

Health Partner supporting to the COVID-19

vaccination campaign in Adigrat

• Four health cluster partners (SCI, WVI, IOM and Plan International):

COVID-19 vaccination updates - Overview 26.01.2023

- As of 10th day a a total persons vaccinated: 86, 343 (72, 318 host community + 14, 025 IDPs)
- Thus vaccination coverage in host community of 56% (i.e. 72, 328/129, 000).

NW, Central zones Coordinating Malaria Epidemic

Response; WHO, SP, IRC, SCI, FHI, Goal-E, IMC, PIE

involved

Tigray Bureau of Health

Immediately reportable diseases in EPI week 1 and 2

06 maternal Deaths

One maternal death from each Hf

(Aragure, Jikjike, Semere melese GH,

Suhul Gh, Machere PHCU and Tukule)

✓ 16 Neonatal deaths;

- o 11 from ACSH
- o 05 (Quiha GH, Mekelle GH, 01 from shuh

GH, Lemlem Karl GH, Mekhoni)

Zoonotic diseases;

24 Dog bite exposure

- ✓ 07 case and 1 death from Endabaguna PH
- 06 from Mekelle GH
- 04 from Adi dekeala PHCU
- 03 Lemlem Karl GH
- 03 from kara-adishuhu
- 01 from fresemaetat PH

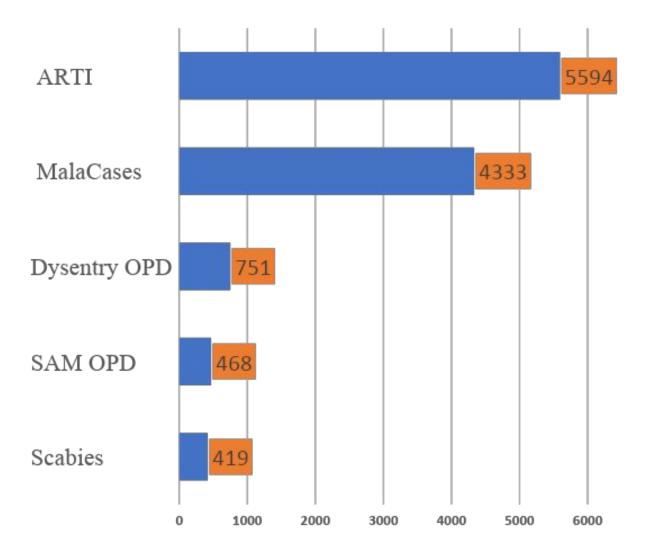

61 suspected cases of Anthrax

- 21 cases and 1 death from Kara-adishuhu
- 13 Esret PHCU
- 11 Mekhoni PH
- 05 from Mariam moko
- 04 from Yechila PH
- 03 from Worka emba
- 02 Samre PHCU
- 02 (Sheraro IDPs and from Ayder)

week 2

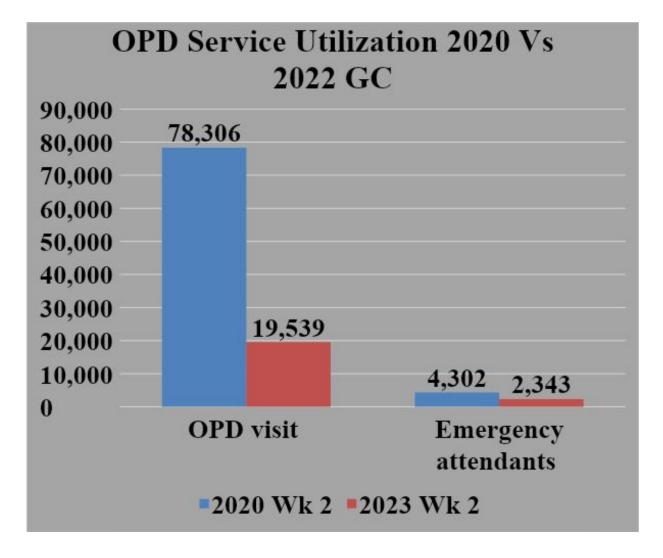

- AURTI is a proxy indicator of Covid 19.
- All the laboratory supplies necessary to Covid, HIV and other have been depleted

OPD Service Utilization 2020 Vs 2022 GC

- % OPD service utilization reduced by 75% in comparison with same health facilities
 2020 week 2.
- The cluster reached in to consensus to conduct Joint Health Facility functionality assessment (led by RHB/health cluster with support of all cluster partners)

Pharmaceuticals

New Arrivals

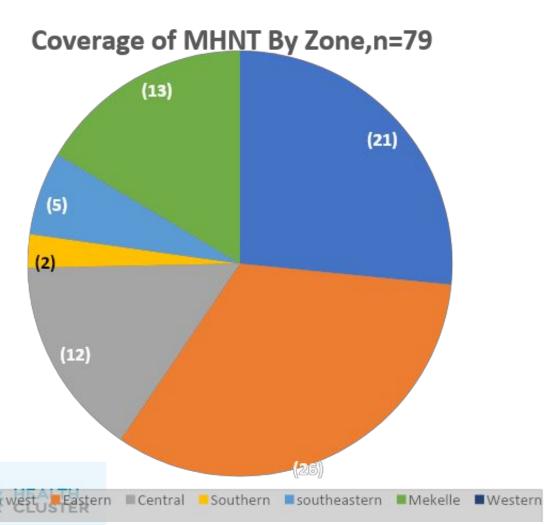

- AAH Received 34 line items of medicines and supplies
- FHI 360 received 25 line items
- IOM received 77 line items including Kits
- WVE received 47 line items of medicines and supplies
- EPSS is receiving Program and Essential medicines.

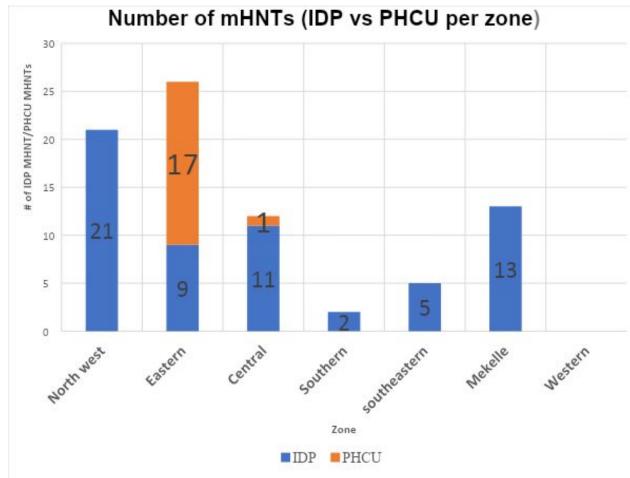

- Despite the progress in delivery of medicines and supplies by partners
- It is too low comparing against demand.

Concerns for the ECC

WASH Cluster Update

Key priorities

- WASH Response in IDP sites
 - Rapid assessment and response are ongoing
 - WASH cluster is currently assigning a "WASH focal agency"
- Sub-regional coordination
 - Maichaw, Mekelle, Adigrat, Abi Adi, Adwa, Axum, Shire and Shrearo are WASH coordination hubs.
 - Mekelle, Shire, Adigrat and Abi Adi have resumed regular coordination.
 - Partners are preparing to scale up the WASH response.
- Supporting partners for WASH supply cargo movement for following initial requirement
 - Electromechanical equipment: 240: Switchboards, 128: Generators, 380 sets: Pumps (Submersibsurface/mono mono/solar), 320 sets:
 Pump motors, 95: Welding machines, 285: Batteries
 - Water Point Rehabilitation: 12,983 sets: Handpumps, 491: Water point maintenance tool kits
 - Sanitation: 28,663: Latrine slabs
 - Water quality: 342: Water quality testing Kits including supplies, 1934: Chlorine (HTH drum of 45 Kg), 818 Bags: A2SO4 (Aluminium Sulphate) (100 Kg bags), 66,000 boxes: PUR (240 sachets per box), 22,000 boxes: Aqua tab (14,000 tabs per box),
 - WASH NFIs: 470,947 Kg / 1.8 mil bars of 250 gm: Soap (bathing and laundry) / per month and 941,895: HH Water storage containers
- Key challenges :
 - Low visibility on supplies
 - Funding

- WASH cluster partners received 2,761
 MT of WASH supplies
- 84% of the water treatment chemical has been distributed
- Monthly 1.8 mil soap (bathing and laundry) bar needed for IDPs.
- 95 % of the soap received has been distributed

Emergency Shelter & NFI Cluster Update

Contextual update

- There are new arrivals that were released recently from four detention centers (Geter-setit, Ketema-setit, Wekni, and Dehaninet) in the Western Zone. Up to now, 1000 Individuals reported to have arrived in Shire while around 825 Ind reported to be living within Hitsats IDP site as well as 3500 in Sheraro.
- As per to the joint assessment conducted by ES/NFI cluster partners in Abiy adi, keyih tekli, kola temben weredas, over, 31,027HH /78,754 individual new IDPs were displaced from different parts of the region to Abiy Adi, Kolatemben and Keyih Tekli, out of which 10,059HH were received ES/NFI assistance.
- Based on the assessment and discussion conducted with zonal authorities in Adigrat, 61,447HH/ 220,486 Ind new IDPs are living in the town, out of which the 31, 508 Ind new IDPs displaced from the central zone (Ahferom and Egela weredas) to bizet town, currently living in extreme need of ES/NFI assistance and did not receive any ES/NFI assistance before. In all the assessed areas significant number of IDPs are sleeping in open spaces and under tree.
- According to the DTM site assessment report 43, 354HH/175 392 Ind IDPs were displaced from Afar, Amhara and different parts of the region to southern zone.
- ES/NFI cluster partners have completed damage assessment in Mekelle SC-4 to identify the materials needed for repairing the shelters.

as of 31 December 2022

Better Decisions
Better Outcomes

perrei para

Overview

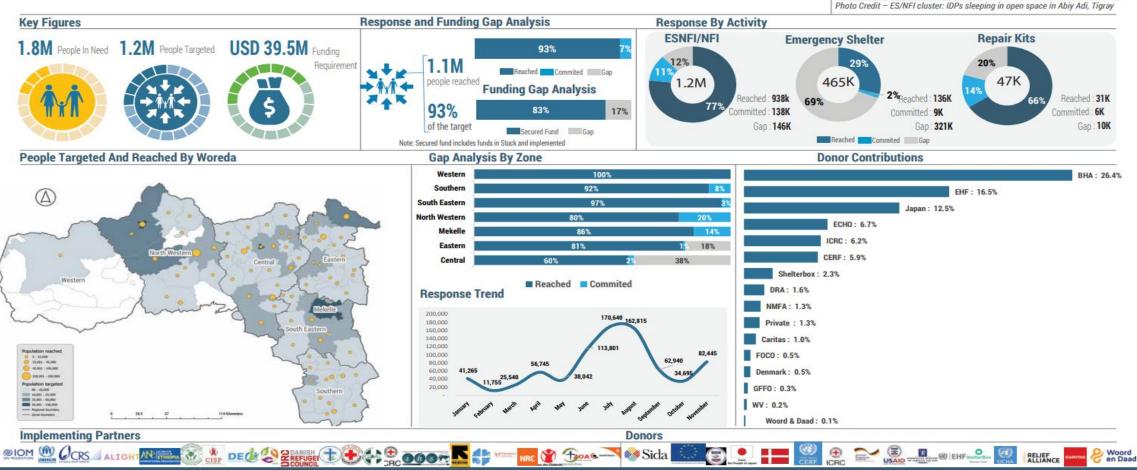

Despite the improved situation in the region, reports of displacements of large numbers of people from the conflict-affected areas to major towns across the region continued. According to DTM ETT 150 report, 10,219HH/36,017Ind new people were displaced from bordering zones and neighbored Afar, and Amhara regions to several nearby towns and locations in the region. According to the regional government currently Mekele city is hosting 139K, most of whom are new; the majority of the IDPs are scattered with the host community, while some are settled in existing IDP sites and in 17 new informal IDP sites.

With the situation in the region continuing to improve, there have been reports of IDPs spontaneously returning to their place of origin recent DTM reports reflected about 6,390 IDP families have returned to their place of origin, most of which are in the southern part of Tigray region.

The ES/NFI cluster has able to reach out over 1,103,977 individuals as of December 31 2022. Most of the response is the distribution of the ESNFI kits, which partners find more straightforward to implement due to various challenges related to the provision of adequate shelters. The resumption of the services such as telecommunication, commercial flight and the bank will ease the ES/NFI activities to get timely information and more cash to strengthen the CBI. The reopening of the humanitarian corridors is also a good opportunity to cluster partners in mobilizing the region's ES/NFI supplies in the pipeline. Still, access remains challenging to reach out to the IDPs in most central and northwestern zones, two weredas of Eastern zones and some parts of southern zones that remain inaccessible.

Furthermore, Cluster has very limited ES/NFI supplies in stock and in the pipeline compared to the region's new displacement and magnitude of affected persons. Considering this, Cluster will be continued advocate to get more supplies to the IDPs living in dire humanitarian conditions.

Challenges Encountered

- Cluster partners unable to reach out IDPs living in hard-to-reach areas due to security access especially in some parts of southern and eastern zones
- Movement restriction to Erob weredas of eastern zone, even to assess the living condition of the IDPs living in the area
- Limited ES/NFI supplies available in stock and in pipeline comparing to current demand of shelter and NFI in the region. In addition to this, materials to rehabilitating schools previously sheltered IDPs
- Still the direction on the new shelter construction, expansion of the existed shelters and returns of the IDPs living in schools is not clear
- IDPs are selling ES/NFI supplies to buy food
- Some partners are distributing ES/NFI supplies 5-8 Months after selecting beneficiaries

CCCM Cluster Update

Situation updates

- Site profile updates review and update old and new sites is on going. Currently 59 out of 124 sites have been completed.
- On Matters access, most sites are accessible. However, not all partners have been able to resume activities, particularly for sites in Mai Tsebri and parts of Sheraro.
- Relocation preparatory activities are ongoing for the final batch of IDPs from Agatina to Sabacare 4 site.
- IDPs in Abi Adi need of :-
- protection services Child, Women/ Girl friendly Spaces.
- WASH services, Latrines are full, need for drinking water, need for hygiene kits.

CCCM Priorities

Relocations – From educational sites to non educational sites. More than 80 education facilities are currently hosting IDPs. There is a need to relocate some of the IDPs residing in this sites to non educational facilities. (Main focus being Mai-Dimu-20,000 IDPs and Adi-Abay-18,000 IDPs in Shire AOR and Sabacare 4 in Mekelle)

Decommissioning – Rehabilitation and Repairs- More than 80 schools will need to be rehabilitated in readiness for the learners to resume their studies. Cluster partners are preparing conservative bill of Quantities for analysis and advocacy.

Maintenance of services in all collective sites – IDPs who will be unable to return to their places of origin for various reasons (Safety and security) will need to be provided with humanitarian assistance.

Area Based Approach – There will be need to enhance the Area Based Approach while, underscoring the need for more local partners to be provided with funding for the same.(The cluster's recommendation would be to focus in woredas such as Shire, strengthen in Mekelle, Adwa/Axum, Sheraro)

Returns and durable solutions. – The cluster will continue to engage in the durable solutions working groups with a view to encourage more returns whilst advocating for sustainable solutions at areas of origin.

Strengthen information management – Ensure that key information products are timely collected and circulated to inform the wider response given the increasing need due to the transitional period.

CCCM Asks...

- Maintenance, recognition and respect of the civilian character of all IDP sites.
- Funding for decommission activities there are over 80 schools with varying repair and rehabilitation needs.
- Security of investment done in IDP sites needs to be guaranteed.
 Looting of solar lights is now becoming rampant More solar lights in other sites are being looted. Shelter looting and destruction is still on going.

Education Cluster Update

TIGRAY EDUCATION CLUSTER - Contextual Update

- All schools in Tigray remain closed impacting close to 2.4 million children who are out of school.
- Yet school reopening date is unknown and children will enter their 4th academic year without access to
 Education if this continues against the huge demand for the resumption of learning from the community.
- Shire AoR, school reopening planned to happen by the end of February or early March 2023.
- Partners started to reach more children with education services (I1D, WV, SCI, IRC)

Education Needs and Priorities

- Salary/incentive for the 54,751 teachers and education personnel.
- School clearance for UXOs and certification to ensure the safety of children.
- Scholastic material support and school feeding services to 1.9M children.

TIGRAY EDUCATION CLUSTER - Challenges Encountered

☐ School Closure
constrained the education cluster responses
☐ Funding
Lack of funding to reactivate the education structure, address teachers' livelihood, and expand reach.
☐ Limited/No Partner Presence
 No/limited education partner presence against the huge demand for education services.
☐ Safe Learning Environment
• Absence of certification of schools for UXOs clearance to ensure a safe learning space for children.

• Use of schools as a shelter by IDPs and other groups

1	Resume education services to IDPs in accessible areas	Southern, Eastern, S/E, Mekelle & Central zones of Tigray	100,000		Accessibility and security context might hinder
2	Launch the Radio & Distance education	All accessible zones of Tigray	16 sessions, 3 subjects		In progress
3	School Feeding Services	Mekelle, Shire, Abiyi Addi	5000		
4	Resume Education Services in Sherao & Mai tsebri	Sheraro & Mai tsebri	TBC		Accessibility & security context
5	Endorsement of the Accelerated Learning plan to compensate	All accessible areas in Tigray	1	Draft Plan	Under discussion: To be discussed on the 28 th January 2023

Protection Cluster Update

- The One-Stop Center ("Berry Center") at Suhul Primary Hospital is now fully functional following UNHCRs renovation of the facility that provides life-saving support to GBV survivors. Plans are ongoing to renovate the Sheraro hospital OSC.
- During this month, UNHCR distributed clothes to 6 IDPs sites to 197,985 beneficiary (including 2,320 men, 48,670 women, 144,400 children and 2,595 urban refugees in Hitsats, Sheraro, Selekleka, Adwa, Axum and Shire.)
- Mai-dmu site is under construction intended to house IDPs from Shire town, a planned visit by
 PC members were postponed due to presence of armed forces on the site.
- In Mekelle and Adigrat **NFIs and Food ration** remained inadequate for IDPs, particularly new arrivals and registered late.

sites.

- Humanitarian assistances are not reaching to the people in need particularly in remote
 areas despite improved security and access after signing of the peace agreement.
- Acute shortage of medicine and medical supplies severely impacting the health facility's function to provide life-saving treatments thus reporting death cases from treatable diseases.
- The presence of **armed opponents** in different areas of Tigray continue to cause concerns for the **free movements**, **safety and security of civilians in many parts of Tigray**. Eg in north west Adi-gebruy 600 caws slaughtered by fano
- Lack of nutrition supplementations in many IDP sites under Mekelle causes concern for the deteriorating conditions of **PSNs** (children, PLWHIV and chronically ill persons).
- UNHCR monitoring reports indicated that IDPs living several sites in Mekelle are
 experiencing serious security concerns due to rise in criminal activities i.e., theft, damage
 to private properties. Urgent attention is required to deploy law enforcement in these

Regional Emergency Coordination Center

- CP AoR members in Shire are reviewing Family Tracing and Reunification (FTR) Strategies and the FTR Working Group to be established.
- High number of **UASC** in Elshadai and IDPs sites. The limitation of cash is also affecting partners to facilitate the FTR process.
- **28,490 individuals** (8,845 children and 19,645 adults) **received EORE** awareness raising in IDPs and host communities in **13 intervention areas**.
- 98 (8F) victims of landmines and ERW identified and registered. Out of the total number, 82 injured,
 14 faces death 92% victims of EO are male children.
- Five mine incident victims have received medical support, one received cash support, and 89 victims were provided with psychosocial support.
- **I1D** in collaboration with **THMAU** provided three days training to **12** (2F) I1D and partners staff on MA and EORE.
- **65** (12F) AAH staff from Keihtekli, Tanquamlash, Abergele, Kolatemben, Samre, Degueatemben and Hagreselam received basic MA and EORE training.

Regional Emergency Coordination Center

- **Eight** GBV partners have submitted 2023 Work Plan to BoSEGE while **13** partners pending
- By this week, sixteen GBV partners have agreed to fill the national GBV AOR service mapping tool to update information for 2023.
- **13,536** beneficiaries were supported with different GBV activities, fifteen implementing agencies reported the support provided in **26 districts**.
- A total of **2,548** beneficiaries were also provided with Dignity Kits and **6647** individuals received and attended GBV awareness session

TIGRAY: Protection Cluster Challenges encountered

- Lack of cash and limited banking services have been seriously impacting protection partner's operations capacity to deliver assistances and services
- Communities have low awareness on dangers of landmines and ERWs. Lack of funds, materials and equipment for demining, clearance, surveying, camping, medical and transportation continue to inhibit activities of demining. Despite available technical capacity, Tigray Humanitarian Mine Action professionals have no operational funds.
- Limited coverages of mine action interventions as fewer partners are operational in Tigray
- Not presence of UNMAS in Tigray is critical for the technical and operational support and guidance in MA interventions

Agriculture Cluster Update

Contextual update-General

- ✓ The Ag. Cluster focused/ concerns on:
 - Irrigation season October 2022 May/June 2023
 - Livestock health response Especially Zoonotic and TBDs
 - The 2023 Belg and Meher Agricultural Seasons' Production
 - Recovery, Reconstruction and Resilience-Review of the various elements across Agriculture subsectors
 - Different assessments (Impact, RPM, Agroforestry)

Contextual update: Livestock

Contextual update-Livestock cont'd

- ✓ Livestock diseases outbreaks increasing
- ✓ Reports from mobile texts

Accomplishments – Livestock

Veterinary Vaccines

- Required: 12 million doses
- Delivered and in use: 2 million

Veterinary Drugs

- Required: 3.5 million doses treatment max of 12 million prophylaxis
- Delivered: on distribution and in use: >3 million doses
- Vaccines and other drugs are on pipe line

Veterinary Equipment

- Required: 198 Clinics
- Delivered and in use in 6 woredas
- Delivered in Mekelle: 48 Cold chain and assorted equipment for 48 clinics. Others not distributed

Vet. drugs and equipment support

✓ Operational Partners:

AAH, WVI, SNV, PI

REST, LWF, FAO &

others

(132k HHs; 520K livestock)

List of items	Unit	Qty
Albendazole 2500mg	Bolus	336,000 (Received)
Albendazole 300mg	Bolus	576,000 (Received)
Treatment syringe for vet use 20ml	Piece	2400 (Received)
Treatment syringe for vet use 10ml	Piece	2400 (Received)
Treatment needle for vet use (18G ³ / ₄ inch length)	Piece	420 (Received)
Vaccination syringe, 30 ml, multi-dose, semi-automatic	Piece	720 (Received)
Vaccination syringe replacement barrel (30 ml)	Piece	7200 (Received)
Sterilizer	Pcs	96 (Received)
Ice bag	cartons	42 (Received)
Ivermectin 1%	Pck	400 (Received)
Electrical sterilizer with thermostat for medical use	Pcs	96 (Received)

Challenges

- ✓ Continuing animal disease outbreaks
- ✓ Limited livestock inputs support(vaccine, equipment, consumable, poultry inputs, IA).
- ✓ Inadequate supply of agricultural inputs (seeds, agrochemicals, fertilizers,
- ✓ Secondary damages to vet clinic

Plan for next week

- ✓ Distribution of fertilizer in the accessible woredas
- ✓ Distribution of the vet drugs and equipment
- ✓ Completing the on going assessments (Impact and RMA)

Solutions planning for IDPs return in Tigray

PRESENTED

BY

UNHCR, TIGRAY

Order of presentation

- Introduction
- DSWG: updates in Tigray Region
- Proposed structure of DSWG in Tigray
- Planning figures on IDP returnees
- Preparations for IDPs return
 - Mine Action
 - Review of assistance package
 - Counselling & registration
- Roles & Responsibilities
- •IDPs' return way forward

Introduction

- Signed Peace Agreement
- Improved security situation and partial resumption of services in Tigray Region
- Appropriate time for Durable Solutions beyond return
- Sustainability of IDPs' return
- Roles and responsibilities of concerned parties

DSWG: updates in Tigray

- Functions of DSWG in Tigray
 - Transitioning returns into Durable Solutions
 - RWG started return and therefore it is a natural transition into DSWG
 - Effective coordination among all stakeholders, including government & IDPs
 - All efforts on advocacy and resource mobilization, supporting durable solutions
- •ToR/Concept note for DSWG already developed & will be shared
- •IDPs return must be sustainable
 - Factors to ensure sustainable return
 - Rehabilitating & developing infrastructures in returned locations (shelter, schools, healthcare, etc;)
 - livelihoods

Proposed structure of DSWG in Tigray

- -Chair: Government (ERPM)
- -Co-chairs: UNHCR & other agencies
- Composition: Government, All Clusters, All Humanitarian, recovery and development agencies
- •Meetings: DSWG initially on weekly basis; ad-hoc meetings as & when necessary
- Secretariat: UNHCR

Planning figures of IDP returns

- Estimated number of IDPs in Tigray: 2.5 million (according to government)
- Estimated number of IDPs expected to return: 2.0 million
- •Estimated number of IDPs expected to be locally integrated and/or relocated to other safe locations: 500,000
- -Time frame for returns: ASAP
- Return locations: All Zones in Tigray

Preparations for IDPs' return

- Intention surveys to identify potential returnees
- •Multi-sectoral assessments & surveys in potential and returned locations
- Community consultations (peaceful co-existence & reconciliation)
- •Clear description of roles and responsibilities of concerned parties
- Review of return package
 - Multi-purpose cash assistance
 - Transportation
 - NFIs/CRIs
 - Food; etc.
- •IDP returnees to receive return assistance package prior to their departure to the various locations of origin
- Mine Action
 - Identification & mapping of mine infested locations
 - Mine clearing
 - Mine awareness, education & response

Counselling & Registration

- -All individual IDPs to be registered and counselled for them to make informed decisions about their return
- Return in accordance with humanitarian principles
- Voluntary choice of return, local integration and relocation
- Return in safety and dignity
- •All the registered IDPs expected to have biometric IDs to be provided by the Government

Roles & Responsibilities

Agency/Authority	Role	Responsibility	Remarks
Government	TBA	TBA	
UNHCR	TBA	TBA	
OCHA	TBA	TBA	
WFP	TBA	TBA	
IOM	TBA	TBA	
UNICEF	TBA	TBA	
WHO	TBA	TBA	
FAO	TBA	TBA	
UNDP	TBA	TBA	
UNFPA	TBA	TBA	
CLUSTERS	TBA	TBA	
PARTNERS/OTHERS, ETC.	TBA	TBA	

IDPs' return - way forward

- Review and finalize ToR on DSWG
- Finalize roles and responsibilities of concerned parties
- Commitment from concerned parties on durable solutions
- •Intensify Mine Action programs; reaching out to,
 - UNMAS
 - Regional Government Bureau on mine action (Tigray Humanitarian Mine Action Unit)
 - Partners (RaDO, etc)
- Strong advocacy at all levels in support of durable solutions in Tigray
- •Timeline from Government on the return exercise

Thank you!
